Export of Rice Against Exchange of Dollar

*509. SHRI SANJAY DALMIA:
SHRI ISH DUTT YADAV:

Will the Minister of FOOD be pleased to state:

(a) whether Government have decided to export rice against the exchange of dollar only;

(b) if so, details thereof;

(c) whether the value of dollar has also been decided; against the value of rupee;

(d) if so, the rate- thereof;

(e) whether the price of rice would increase in terms of rupee as a result thereof and the subsidy given to the FCI on rice would also decrease; and

(f) if so, the estimated amount of decrease in subsidy alongwith the varieties of rice;

THE MINISTER OF FOOD AND MINISTER OF CIVIL SUPPLIES, CONSUMER AFFAIRS AND PUBLIC DISTRIBUTION (SHRI DEVENDRA PRASAD YADAV): (a) and (b) The Government have fixed open sale price for export of fine and superfine rice from the public stocks in terms of U.S. dollars chargeable in Indian Rupees with effect from 7.2.96. The details of the prices per metric ton effective from 1.7.96 are given below:—

	In US $	In Indian Rupees	Remarks
Punjab	210.00	7350.00	Exchange rate
Haryana	208.57	7300.00	of Rs. 35/-for
Western U.P.	205.71	7200.00	a U.S. dollar
MP.	212.86	7450.00	was taken on 1.7.96

(c) No, Sir.

(d) In view of (c) above question does not arise.

(e) and (f) Depending on the fluctuation in the dollar rupee exchange (bill) rate, price in Indian Rupees could either move upwards or downwards. Since such fluctuations are not very large, no substantial impact is expected on the quantumof subsidy being given to FCI on account of these fluctuations. No firm estimate regarding change in the amount of subsidy can be made at this stage as the sale for export of non-basmati rice from the public stock would depend on many factors such as international prices, demand for rice in international market.
